

Tang Hall SMART post 16 studies for music and art

One person's success is everyone's celebration.

We are a community music and arts company based in York.

tanghallsmart.com

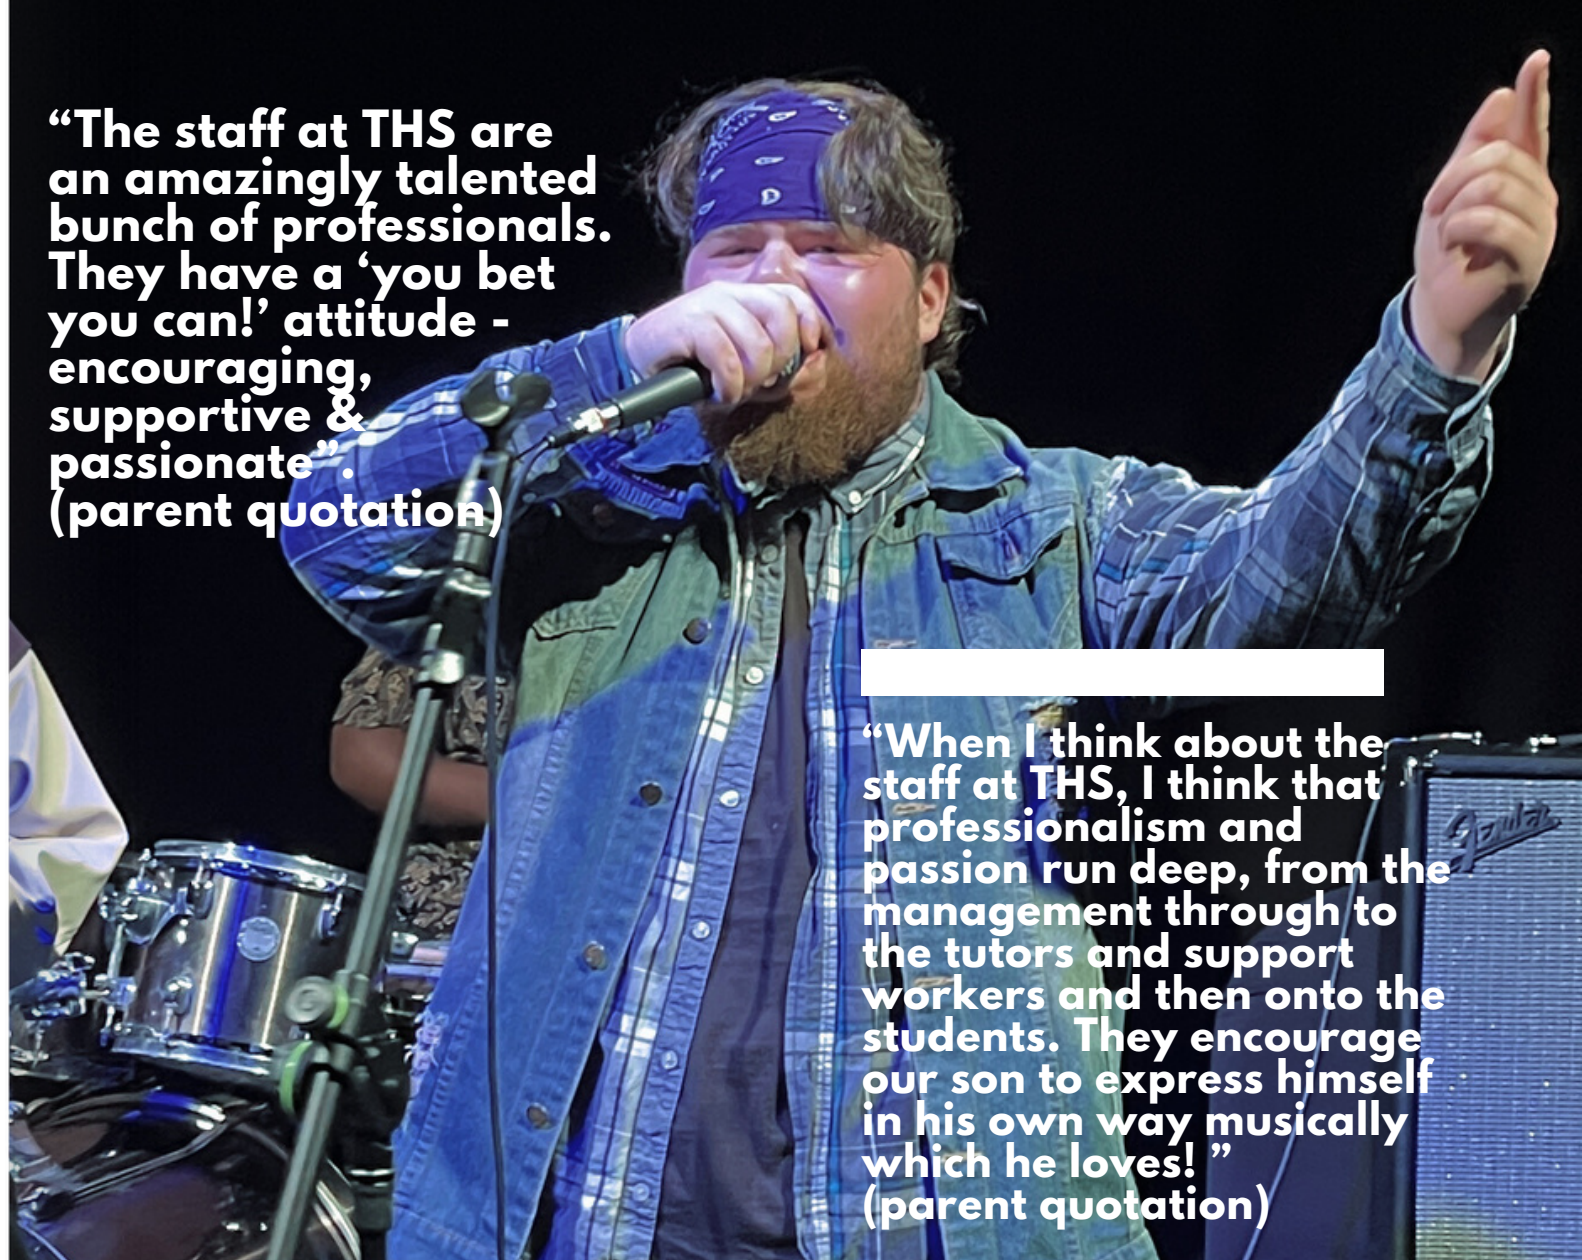

We are now accepting Post 16 applications for the RSL Level 3 Diploma in music or art. Our programmes are typically spread over 3 days, last for 2 years, and are ideal for young people who are passionate about music or art and who are thinking of working in the music or art industry/intending to go to university.

- We do not require evidence of prior attainment as a condition of acceptance but any student who wishes to take up a placement would need to attend an interview and be prepared to show a portfolio of work/audition.
- Programmes are delivered mainly in groups of 4, alongside students of a similar ability level.

We are experienced in supporting able young people with a range of needs by enabling them to attain their goals. This includes those who have EHCPs, and for whom there is often an offer of a fully funded placement via the local authority. We also accept students of all abilities, with or without EHCPs who are able to fund their placement privately.

In the first instance email sue@tanghallsmart.com for further information.

**“The staff at THS are an amazingly talented bunch of professionals. They have a ‘you bet you can!’ attitude - encouraging, supportive & passionate”.
(parent quotation)**

**“When I think about the staff at THS, I think that professionalism and passion run deep, from the management through to the tutors and support workers and then onto the students. They encourage our son to express himself in his own way musically which he loves!”
(parent quotation)**

We believe that ‘real life opportunities’ are key to helping students make the transition from an educational and creative environment to the world of being a professional in the creative industry.

We have a rich history of providing those performance opportunities through various concerts throughout the term, such as:

Performance Opportunities

- Concerts at our Burnholme Base
- Theatre 41 Band Night
- Music in the Cafe
- Community Concerts
- We have also held concerts at prestigious venues in York such as The Barbican and Fibbers

These concerts give our students a real-industry context for developing their instrumental/vocal skills in a supportive environment.

Performance and music opportunities

“Being part of Tang Hall SMART is more than just doing a qualification or course, it’s about learning life skills and socialising with friends. It’s also good fun to learn, because the staff are friendly and very knowledgeable in what they do. It feels like a big family or community when we all work together.” (student quotation)

Art Opportunities

We offer Post 16 art qualifications at Level 3. Art is taught in small groups with at least two committed staff members per group who understand the diverse interest and needs of our students.

As a team of teachers and creatives we are passionate about guiding our art students in the right direction but we also give time and space to allow them to flourish in their own creative directions.

We offer a Creative Art and Design vocational art qualification which prepares learners to progress to Art Foundation or University courses in Fine Art, Illustration, Fashion, Costume Design or Graphic Design. Because of our small groups of between four and eight students, we are able to deliver our education in a bespoke way to focus on individual interests

“Without exception, there is an outstanding level of care and support. The staff are calm and reassuring and take their time to get to know each and every young person, valuing their differences“. (parent quotation)

We have helped support our students into employment within the music and arts industry. Completing a Level 3 RSL course in either Music or Art will enable students to look for work in areas such as:

Music

- Session Musician
- Production
- Writing & Performance
- Teaching
- Sound Technician

Art

- Illustrator
- Graphic Designer
- Teacher
- Animator
- Fashion Designer

Basic Costs (per 35-week year)

14 hours of group-work on site, access to our digital college, registration costs with RSL, weekly 30 minute 1-1 tutorial with an academic mentor.

= £3,750

This can be paid termly (£1,250 per term) or spread over 10 monthly payments (September to June) of £375 per month.

Pricing

“We have no doubt that it was because of the dedicated team at Tang Hall SMART that our son’s life turned around.

This has opened up the pathway for him to study his dream course “Composition for the Film & Games Industry” at Hertfordshire University”.
(parent quotation)
